

NHSS 12D M4 Convoy Working

Product code:

66

Summary / introduction:

National Highway Sector Scheme 12D for installing and removing temporary traffic management on rural and urban roads.

Target audience:

12D M4 is for persons wishing to become Registered Traffic Management Convoy Working Operatives as described in the Sector Scheme Document 12D.

To become a registered 12D M4 Operative, the learner must have completed the NHSS 12D T1/T2 course and either be in the process of being registered as a 12D M2 Operative or already be a registered 12D M2 Operative prior to applying for registration.

Following completion of the 12D T4 training course the learner will need to:

undertake a single on site assessment as prescribed in the Sector Scheme Document to obtain the category. The assessment must be completed within a two year period starting from the date of passing the training.

Each learner must be assessed individually – “whilst undertaking traffic management operations, including assessment of capability, unregistered Traffic Management Operatives shall at all times be supervised by an appropriately registered Traffic Management Operative on a one to one basis” – NHSS12D Sector Scheme Document, page 22, 6.2.1(i). Minimum competency requirements for gang sizes are shown on page 23 of the document – these must be maintained whilst assessments are being carried out.

Description:

This course will cover:

- Quality assurance
- Sector Schemes
- Health & safety requirements
- Risk assessments/method statements
- Industry guidance documents
- Working without safety zones

- Convoy vehicles and equipment
- Single carriageway convoy systems – single vehicle
- Single carriageway convoy systems – three vehicles
- Dual carriageway convoy systems multiple vehicles
- End of course test.

Product objectives:

On completion of this course learners will:

- Be aware of Sector Schemes
- Be aware of Health and Safety requirements
- Be aware of Risk Assessments and Method Statements
- Be aware of the relevant Codes of Practice and other associated documentation when involved in Traffic Management
- Identify the equipment required in Temporary Traffic Management
- Understand the requirements for convoy working
- Understand how convoy systems operate
- Be aware of the requirements of non-motorised road users
- Be prepared to undertake assessments to demonstrate an ability to implement, maintain and remove safely traffic control and convoy systems.
